# Travel Together

## Combining Safety and Functionality

From your daily commute into the city to extended road trips, time can pass slowly on the rear seat. That's why Honda offers a line-up of Genuine Accessories to add to the comfort and safety of your rear seat passengers, both big and small. From entertaining your passengers with the Honda In-Vehicle Entertainment System to blocking out the glare with the Honda Sunblinds, your rear seat will be packed with smiles. In addition, Honda offers a range of child seats that combines comfort with the most stringent safety requirements, allowing both parents and kids to relax whilst on the road.

With Honda's Genuine Accessories range, you'll find eager passengers waiting for the next drive.

# Enjoy Peace of Mind

04 05 > CHILD SEATS

## Your Kids' Safety Shell

On the road, you want the best protection possible for your children. Honda puts their safety first with a line-up of Genuine Honda Child Seats. With five models to choose from, babies and children up to 12 years old can find the perfect seat to guarantee their safety, as well as their comfort. All the Genuine Honda Child Seats have undergone intense and extensive testing and comply with the most stringent ECE R44/04 regulations. In addition, the new range of child seats features a new soft fabric and ticker padding for extra comfort, as well as increased protection against a side impact.

## GROUP 0+

› Baby-safe

› Baby-safe Isofix

This backward-facing bucket-type seat is aimed at babies up to 15 months (up to 13 kg) and offers the best possible protection for the baby's most vulnerable body parts, namely the head, neck and spine. The Baby-safe child seat is also available with Isofix fixation.

## GROUP 1+

› Lord Plus

› Duo Plus Isofix

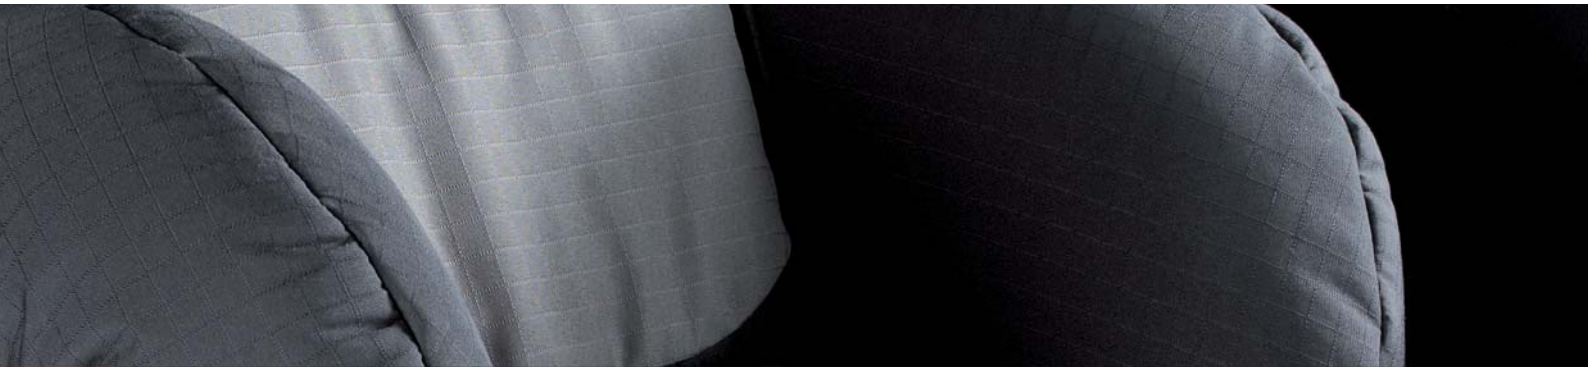

For babies and young children of 8 months to 4 years (9 to 18 kg), the Duo Plus child seat features Isofix fixation with a unique third fixation system, the top tether, to prevent forward tilting when frontal impact occurs. The Lord Plus is the variant with a 3-point seatbelt fixation.

## GROUP 2 & 3

The Kid is a forward-facing child seat aimed at children aged 3 to 12 years (15 to 36 kg). It offers children the complete protection for the head and the entire body.

› Kid

**1 DURABLE NEW FABRIC**

The new range of Genuine Honda Child Seats features a new durable fabric, which matches the new car interiors better and has a softer feel. It is also durable, washable and waterproof.

**2 TOP TETHER SECURITY BELT**

To assure that your child's seat is properly secured, all the Isofix child seats feature a top tether security belt. The top tether belt attaches to the top mounting point and assures that not just the base of the seat is stable, but the backrest and the top of the seat as well. In case of an impact, this will prevent the seat from moving forward.

**3 CLICK-AND-PULL SHOULDER-STRAP ADJUSTMENT**

The Group 1+ model features a hassle-free click-and-pull adjustable shoulder harness at the back of the seat. This allows you to adapt the height of the straps easily to assure that the vulnerable upper section of your child's body is held firmly in place.

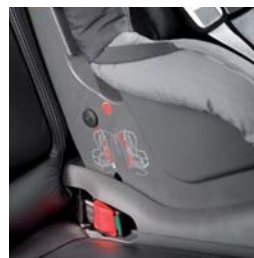

**4 THE LEADING STANDARD IN SAFETY**

Both the Group 0+ and Group 1+ child seats are also available with Isofix connections. All child seats feature a 5-point safety belt, which means that the entire body is tightly secured. In addition, especially for the Isofix child seats, installation is easy. Simply insert the anchor guides into the anchor points between the seat and the seat cushion, and push the anchor guides backwards until you hear the click. Once the arms are secured, the top tether security belt can be attached to the mounting point. Finally, pull tight and your little ones can travel in safety and comfort.

\* Isofix is an easy and safe method of securing child seats in cars developed by the International Standards Organisation.

# Glare Protection

10 11 > SUNBLINDS

## Loving those Summer Drives

On a hot summer day, there's no escaping the sun from the rear seat. Honda offers the perfect solution, both functional and stylish. The Genuine Honda Sunblinds are model-specific, meaning they fit perfectly and guarantee the best possible protection. These sunblinds, which can be easily mounted and taken down again, reduce the glare and make the car feel cooler inside. Your passengers will be protected against the blistering sun and will certainly enjoy their time on the rear seat much more. In addition, the darkened windows will add a classy, executive touch to the good looks of your Honda, as well as protect your personal belongings in the back against unwanted onlookers.

*Darkening the windows by approximately 41%, the Genuine Honda Sunblinds reduce glare and allow for a cooler feel on the rear seat. Since they are model-specific, you can enjoy optimal sun protection in your Honda.*

#### **A PERFECT FIT**

The Genuine Honda Sunblinds are perfectly shaped to match the windows of your specific Honda model and can be easily attached and detached using clips on the window frame. Feel like taking the Genuine Honda Sunblinds down for the winter months? They can be taken down effortlessly and within minutes. Genuine Honda Sunblinds come with a complementary protective carry bag, so they can be easily stored.

*Genuine Honda Sunblinds are available for all Honda models.*

# Enjoy the Drive

12 13 > I-VES

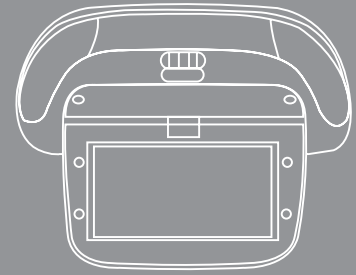

## Entertainment on Wheels

The Honda In-Vehicle Entertainment System (I-VES) turns your rear seat into a proper entertainment lounge on wheels where your passengers can feel at home. The I-VES features DVD, CD and MP3 capabilities, as well as the connection possibilities to easily hook up a variety of external AV sources. With so many possibilities, the I-VES will certainly keep your passengers entertained for hours.

### **FIT FOR YOUR HONDA**

Because the headunit of the I-VES comes with a model-specific mounting kit, it is seamlessly installed in your Honda. In addition, it integrates perfectly in the car and complements any other installed Honda units as well. However, the system's centre of attention is elsewhere to be found. Centrally-mounted on the roof, the fold-away high-quality 7" LCD screen with a wide viewing angle is what everyone will be watching. Instead of counting the kilometers, your passengers will be focusing on the latest DVD, listening to a CD or absorbed in their latest game.

## Loving the Journey

Honda's I-VES is so flexible and versatile that your passengers can entertain themselves the way they like being entertained. A handy remote control offers them full control over the system, allowing them to select their source and play it. But there's more. They can zoom in on their favourite movie scenes, skip back and forth between scenes and songs, navigate through the MP3 menu and easily plug in their games console. The I-VES comes standard with two wireless headphones, which allow you to focus on the road rather than the action scenes. And, for DVDs that support the Parental Control Lock feature, the system can even control the content of what your children get to see.

#### LOUNGING ON THE REAR SEAT

The Honda I-VES turns your rear seat into a proper entertainment lounge on wheels where your passengers can feel at home, however long the drive.

**MP3**

- Enjoy the brilliance of a high-performance 7" LCD screen, which flips down from its roof-mounted position. The screen features adjustable settings for brightness, contrast, colour, tint, sharpness and dimmer control.
- Both standard (4:3) viewing and wide screen (16:9) are supported.
- A wide viewing angle assures that no one on the rear seat misses out on the action.
- Multilingual on-screen messaging allows you to control the system in your own language.
- Turn up the volume as loud as you like without disturbing the driver or the other passengers, thanks to two complementary infrared, wireless headphones.
- Hook up your additional AV sources, such as a games console or a video camera, via the auxiliary AV jacks.
- Connect directly to your in-car audio system.
- Play a wide variety of the most common AV files, from DVD-Video\* and MP3 to Audio and Video CDs.

\* As the European standard, the system only supports Region 2 DVDs.

These specification details do not apply to any particular product which is supplied or offered for sale. The manufacturers reserve the right to vary their specifications, including colour, with or without notice and at such times in such manner as they think fit. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. This publication shall not constitute in any circumstances whatsoever an offer by the Company to any person. All sales are made by the Distributor or Dealer concerned subject to and with the benefit of the standard Conditions of Sales and Warranty given by the Distributor or Dealer, copies of which may be obtained from him/her on request. Whilst efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specification details with the supplying Dealer or Distributor, especially if your model selection is dependent upon one of the features advertised.
